

OrcaTech GEO Intelligence V2

Agency: Acme GEO Agency

Brand: OrcaTech

Website: <https://orcatech.online>

Generated: 2026-06-08T02:40:27.933Z

Branding color: #00f5d4

Logo URL: Not configured

## 1. Executive Summary

OrcaTech GEO intelligence summary is based only on stored audits, prompt responses, citations, and V2 engine outputs.

GEO Score: 97

Threats: 3

Opportunities: 11

Visibility leakage: 65/100

Executive evidence: Schema score 100/100 from latest audit JSON-LD/entity checks. (GEO Audit; <https://orcatech.online/>)

Executive evidence: FAQ score 100/100 from FAQ schema and question coverage. (GEO Audit; <https://orcatech.online/>)

Executive evidence: Citation score 100/100 from 9 non-demo citation rows. (Prompt Tracking + Citation Discovery; <https://orcatech.online/>)

Executive evidence: Entity score 100/100 from 12 brand mentions and 0 competitor mentions. (Prompt Tracking; <https://orcatech.online/>)

Executive evidence: Calculated 3 competitor threat profile(s) from stored prompt and citation evidence. (Competitor Threat Engine; <https://orcatech.online/>)

## 2. GEO Score Breakdown

Overall: 97

Schema: 100; FAQ: 100; Authority: 84; Content: 96; Citations: 100; Entity: 100

Confidence: 81; Data source: GEO\_AUDIT + PROMPT\_TRACKING + CITATION\_DISCOVERY; Last verified: Sun Jun 07 2026 22:17:52 GMT-0400 (Eastern Daylight Time)

Score evidence: Schema score 100/100 from latest audit JSON-LD/entity checks. (GEO Audit; <https://orcatech.online/>)

Score evidence: FAQ score 100/100 from FAQ schema and question coverage. (GEO Audit; <https://orcatech.online/>)

Score evidence: Citation score 100/100 from 9 non-demo citation rows. (Prompt Tracking + Citation Discovery; <https://orcatech.online/>)

Score evidence: Entity score 100/100 from 12 brand mentions and 0 competitor mentions. (Prompt Tracking; <https://orcatech.online/>)

Why: Schema is a strength at 100/100. | FAQ coverage is a strength at 100/100. | Authority signals is a strength at 84/100. | Content coverage is a strength at 96/100. | Citation profile is a strength at 100/100. | Entity coverage is a strength at 100/100.

### 3. Threat Analysis

Palo Alto Networks: LOW threat, score 13. Palo Alto Networks is visible in tracked AI responses; Palo Alto Networks owns trusted source citations.

Confidence: 79; Data source: PROMPT\_TRACKING + CITATION\_DISCOVERY + GEO\_SCORE\_V2; Last verified: 2026-06-08T02:40:27.805Z

Evidence: Palo Alto Networks appeared in 1 real prompt response(s). (Prompt Tracking; <https://www.paloaltonetworks.com/>)

Evidence: Palo Alto Networks dominated 0 prompt response(s) where OrcaTech was absent. (Prompt Tracking; <https://orcatech.online>)

Evidence: paloaltonetworks.com owned 1 citation(s) in stored AI responses. (Citation Discovery; <https://www.paloaltonetworks.com/>)

Evidence: 0 prompt/content opportunity record(s) reference this competitor. (Prompt Discovery + Content Gaps; <https://orcatech.online>)

Check Point: LOW threat, score 13. Check Point is visible in tracked AI responses; Check Point owns trusted source citations.

Confidence: 79; Data source: PROMPT\_TRACKING + CITATION\_DISCOVERY + GEO\_SCORE\_V2; Last verified: 2026-06-08T02:40:27.805Z

Evidence: Check Point appeared in 1 real prompt response(s). (Prompt Tracking; <https://www.checkpoint.com/>)

Evidence: Check Point dominated 0 prompt response(s) where OrcaTech was absent. (Prompt Tracking; <https://orcatech.online>)

Evidence: checkpoint.com owned 1 citation(s) in stored AI responses. (Citation Discovery; <https://www.checkpoint.com/>)

Evidence: 0 prompt/content opportunity record(s) reference this competitor. (Prompt Discovery + Content Gaps; <https://orcatech.online>)

Cyberoam: LOW threat, score 13. Cyberoam is visible in tracked AI responses; Cyberoam owns trusted source citations.

Confidence: 79; Data source: PROMPT\_TRACKING + CITATION\_DISCOVERY + GEO\_SCORE\_V2; Last verified: 2026-06-08T02:40:27.806Z

Evidence: Cyberoam appeared in 1 real prompt response(s). (Prompt Tracking; <https://www.cyberoam.com/>)

Evidence: Cyberoam dominated 0 prompt response(s) where OrcaTech was absent. (Prompt Tracking; <https://orcatech.online>)

Evidence: cyberoam.com owned 1 citation(s) in stored AI responses. (Citation Discovery; <https://www.cyberoam.com/>)

Evidence: 0 prompt/content opportunity record(s) reference this competitor. (Prompt Discovery + Content Gaps; <https://orcatech.online>)

### 4. Competitor Analysis

Palo Alto Networks: visibility advantage 8, citation advantage 18, content advantage 16, GEO advantage 12.

Confidence: 79; Data source: PROMPT\_TRACKING + CITATION\_DISCOVERY + GEO\_SCORE\_V2; Last verified: 2026-06-08T02:40:27.805Z

Evidence: Palo Alto Networks appeared in 1 real prompt response(s). (Prompt Tracking; <https://www.paloaltonetworks.com/>)

Evidence: Palo Alto Networks dominated 0 prompt response(s) where OrcaTech was absent. (Prompt Tracking; <https://orcatech.online>)

Evidence: paloaltonetworks.com owned 1 citation(s) in stored AI responses. (Citation Discovery; <https://www.paloaltonetworks.com/>)

Evidence: 0 prompt/content opportunity record(s) reference this competitor. (Prompt Discovery + Content Gaps; <https://orcatech.online>)

Check Point: visibility advantage 8, citation advantage 18, content advantage 16, GEO advantage 12.

Confidence: 79; Data source: PROMPT\_TRACKING + CITATION\_DISCOVERY + GEO\_SCORE\_V2; Last verified: 2026-06-08T02:40:27.805Z

Evidence: Check Point appeared in 1 real prompt response(s). (Prompt Tracking; <https://www.checkpoint.com/>)

Evidence: Check Point dominated 0 prompt response(s) where OrcaTech was absent. (Prompt Tracking; <https://orcatech.online>)

Evidence: checkpoint.com owned 1 citation(s) in stored AI responses. (Citation Discovery; <https://www.checkpoint.com/>)

Evidence: 0 prompt/content opportunity record(s) reference this competitor. (Prompt Discovery + Content Gaps; <https://orcatech.online>)

Cyberoam: visibility advantage 8, citation advantage 18, content advantage 16, GEO advantage 12.

Confidence: 79; Data source: PROMPT\_TRACKING + CITATION\_DISCOVERY + GEO\_SCORE\_V2; Last verified: 2026-06-08T02:40:27.806Z

Evidence: Cyberoam appeared in 1 real prompt response(s). (Prompt Tracking; <https://www.cyberoam.com/>)

Evidence: Cyberoam dominated 0 prompt response(s) where OrcaTech was absent. (Prompt Tracking; <https://orcatech.online>)

Evidence: cyberoam.com owned 1 citation(s) in stored AI responses. (Citation Discovery; <https://www.cyberoam.com/>)

Evidence: 0 prompt/content opportunity record(s) reference this competitor. (Prompt Discovery + Content Gaps; <https://orcatech.online>)

## 5. Visibility Opportunities

Best cybersecurity company in Saudi Arabia for regulated banks: score 80, expected gain 60, difficulty 70. Track and optimize for "Best cybersecurity company in Saudi Arabia for regulated banks".

Confidence: 85; Data source: AI\_PROVIDER + BRAND\_PROFILE; Last verified: 2026-06-08T02:16:14.176Z

Evidence: OrcaTech is a professional web development and cybersecurity company serving

businesses in Egypt, Saudi Arabia, and worldwide. (AI prompt discovery)

Evidence: OrcaTech provides SOC services for regulated banks in Saudi Arabia. (AI prompt discovery)

Evidence: Prompt generated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

Earn citation on sama.gov.sa: score 54, expected gain 35, difficulty 51. Earn credible third-party coverage or citations on sama.gov.sa because it is supported by V2 discovery evidence.

Confidence: 81; Data source: PROMPT\_TRACKING; Last verified: 2026-06-08T02:17:32.496Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://sama.gov.sa/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

Earn citation on saudiamco.com: score 54, expected gain 35, difficulty 51. Earn credible third-party coverage or citations on saudiamco.com because it is supported by V2 discovery evidence.

Confidence: 81; Data source: PROMPT\_TRACKING; Last verified: 2026-06-08T02:17:32.496Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://saudiamco.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

Earn citation on stc.com.sa: score 54, expected gain 35, difficulty 51. Earn credible third-party coverage or citations on stc.com.sa because it is supported by V2 discovery evidence.

Confidence: 81; Data source: PROMPT\_TRACKING; Last verified: 2026-06-08T02:17:32.496Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://stc.com.sa/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

Earn citation on mcit.gov.sa: score 54, expected gain 35, difficulty 51. Earn credible third-party coverage or citations on mcit.gov.sa because it is supported by V2 discovery evidence.

Confidence: 81; Data source: PROMPT\_TRACKING; Last verified: 2026-06-08T02:17:32.496Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for

cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://mcit.gov.sa/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

Earn citation on cyberoam.com: score 54, expected gain 35, difficulty 51. Earn credible third-party coverage or citations on cyberoam.com because it is supported by V2 discovery evidence.

Confidence: 81; Data source: PROMPT\_TRACKING; Last verified: 2026-06-08T02:17:32.496Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://cyberoam.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

Earn citation on checkpoint.com: score 54, expected gain 35, difficulty 51. Earn credible third-party coverage or citations on checkpoint.com because it is supported by V2 discovery evidence.

Confidence: 81; Data source: PROMPT\_TRACKING; Last verified: 2026-06-08T02:17:32.496Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://checkpoint.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

Earn citation on paloaltonetworks.com: score 54, expected gain 35, difficulty 51. Earn credible third-party coverage or citations on paloaltonetworks.com because it is supported by V2 discovery evidence.

Confidence: 81; Data source: PROMPT\_TRACKING; Last verified: 2026-06-08T02:17:32.496Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://paloaltonetworks.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

## 6. Citation Opportunities

sama.gov.sa: score 54. Earn credible third-party coverage or citations on sama.gov.sa because it is supported by V2 discovery evidence.

Confidence: 81; Data source: PROMPT\_TRACKING; Last verified: Sun Jun 07 2026 22:17:32

GMT-0400 (Eastern Daylight Time)

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://sama.gov.sa/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

saudiaramco.com: score 54. Earn credible third-party coverage or citations on saudiaramco.com because it is supported by V2 discovery evidence.

Confidence: 81; Data source: PROMPT\_TRACKING; Last verified: Sun Jun 07 2026 22:17:32

GMT-0400 (Eastern Daylight Time)

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://saudiaramco.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

stc.com.sa: score 54. Earn credible third-party coverage or citations on stc.com.sa because it is supported by V2 discovery evidence.

Confidence: 81; Data source: PROMPT\_TRACKING; Last verified: Sun Jun 07 2026 22:17:32

GMT-0400 (Eastern Daylight Time)

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://stc.com.sa/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

mcit.gov.sa: score 54. Earn credible third-party coverage or citations on mcit.gov.sa because it is supported by V2 discovery evidence.

Confidence: 81; Data source: PROMPT\_TRACKING; Last verified: Sun Jun 07 2026 22:17:32

GMT-0400 (Eastern Daylight Time)

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://mcit.gov.sa/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

cyberoam.com: score 54. Earn credible third-party coverage or citations on cyberoam.com because it is supported by V2 discovery evidence.

Confidence: 81; Data source: PROMPT\_TRACKING; Last verified: Sun Jun 07 2026 22:17:32

GMT-0400 (Eastern Daylight Time)

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation;  
<https://cyberoam.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile;  
<https://orcatech.online>)

checkpoint.com: score 54. Earn credible third-party coverage or citations on  
checkpoint.com because it is supported by V2 discovery evidence.

Confidence: 81; Data source: PROMPT\_TRACKING; Last verified: Sun Jun 07 2026 22:17:32  
GMT-0400 (Eastern Daylight Time)

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation;  
<https://checkpoint.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile;  
<https://orcatech.online>)

paloaltonetworks.com: score 54. Earn credible third-party coverage or citations on  
paloaltonetworks.com because it is supported by V2 discovery evidence.

Confidence: 81; Data source: PROMPT\_TRACKING; Last verified: Sun Jun 07 2026 22:17:32  
GMT-0400 (Eastern Daylight Time)

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation;  
<https://paloaltonetworks.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile;  
<https://orcatech.online>)

orcatech.com: score 54. Earn credible third-party coverage or citations on orcatech.com  
because it is supported by V2 discovery evidence.

Confidence: 81; Data source: PROMPT\_TRACKING; Last verified: Sun Jun 07 2026 22:17:32  
GMT-0400 (Eastern Daylight Time)

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation;  
<https://orcatech.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile;  
<https://orcatech.online>)

## 7. Quick Wins

1-day #1: llms-full.txt is available. Publish llms-full.txt with complete AI-readable brand, service, and proof content.

Expected gain: 5; difficulty: 20; confidence: 78; source: GEO\_AUDIT

Evidence: llms-full.txt is available failed with value false. (GEO Audit; <https://orcatech.online/>)

7-day #1: Earn citation on sama.gov.sa. Earn credible third-party coverage or citations on sama.gov.sa because it is supported by V2 discovery evidence.

Expected gain: 35; difficulty: 51; confidence: 81; source: PROMPT\_TRACKING

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://sama.gov.sa/>)

7-day #2: Earn citation on saudiamco.com. Earn credible third-party coverage or citations on saudiamco.com because it is supported by V2 discovery evidence.

Expected gain: 35; difficulty: 51; confidence: 81; source: PROMPT\_TRACKING

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://saudiamco.com/>)

7-day #3: Earn citation on stc.com.sa. Earn credible third-party coverage or citations on stc.com.sa because it is supported by V2 discovery evidence.

Expected gain: 35; difficulty: 51; confidence: 81; source: PROMPT\_TRACKING

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://stc.com.sa/>)

7-day #4: Earn citation on mcit.gov.sa. Earn credible third-party coverage or citations on mcit.gov.sa because it is supported by V2 discovery evidence.

Expected gain: 35; difficulty: 51; confidence: 81; source: PROMPT\_TRACKING

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://mcit.gov.sa/>)

30-day #1: Best cybersecurity company in Saudi Arabia for regulated banks. Track and optimize for "Best cybersecurity company in Saudi Arabia for regulated banks".

Expected gain: 60; difficulty: 70; confidence: 85; source: AI\_PROVIDER + BRAND\_PROFILE

Evidence: OrcaTech is a professional web development and cybersecurity company serving businesses in Egypt, Saudi Arabia, and worldwide. (AI prompt discovery)

Evidence: OrcaTech provides SOC services for regulated banks in Saudi Arabia. (AI prompt discovery)

Evidence: Prompt generated for Cybersecurity in Saudi Arabia. (Brand Profile;

<https://orcatech.online>)

## 8. 30-Day Plan

thirtyDay #1: Best cybersecurity company in Saudi Arabia for regulated banks. Track and optimize for "Best cybersecurity company in Saudi Arabia for regulated banks".

Expected gain: 60; difficulty: 70; confidence: 85; source: AI\_PROVIDER + BRAND\_PROFILE

Evidence: OrcaTech is a professional web development and cybersecurity company serving businesses in Egypt, Saudi Arabia, and worldwide. (AI prompt discovery)

Evidence: OrcaTech provides SOC services for regulated banks in Saudi Arabia. (AI prompt discovery)

Evidence: Prompt generated for Cybersecurity in Saudi Arabia. (Brand Profile;

<https://orcatech.online>)

## 9. 60-Day Plan

60-day #1: Earn citation on sama.gov.sa. Earn credible third-party coverage or citations on sama.gov.sa because it is supported by V2 discovery evidence.

Expected visibility gain: 35; difficulty: 51; confidence: 81

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://sama.gov.sa/>)

60-day #2: Earn citation on saudiamco.com. Earn credible third-party coverage or citations on saudiamco.com because it is supported by V2 discovery evidence.

Expected visibility gain: 35; difficulty: 51; confidence: 81

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://saudiamco.com/>)

60-day #3: Earn citation on stc.com.sa. Earn credible third-party coverage or citations on stc.com.sa because it is supported by V2 discovery evidence.

Expected visibility gain: 35; difficulty: 51; confidence: 81

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://stc.com.sa/>)

60-day #4: Earn citation on mcit.gov.sa. Earn credible third-party coverage or citations on mcit.gov.sa because it is supported by V2 discovery evidence.

Expected visibility gain: 35; difficulty: 51; confidence: 81

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://mcit.gov.sa/>)

60-day #5: Earn citation on cyberoam.com. Earn credible third-party coverage or citations on cyberoam.com because it is supported by V2 discovery evidence.

Expected visibility gain: 35; difficulty: 51; confidence: 81

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://cyberoam.com/>)

## 10. 90-Day Plan

90-day #1: Reduce Palo Alto Networks threat by closing citation/content gaps tied to score 13.

90-day #2: Reduce Check Point threat by closing citation/content gaps tied to score 13.

90-day #3: Reduce Cyberoam threat by closing citation/content gaps tied to score 13.

Benchmark target: improve from industry percentile 100 using 3 scored samples.

Benchmark evidence: Compared 3 scored brand sample(s) in Cybersecurity / Saudi Arabia. (Industry Benchmark Engine; <https://orcatech.online>)

Benchmark evidence: Current GEO score sample is 97. (GEO Score V2 + Analytics; <https://orcatech.online>)
