

OrcaTech GEO Accuracy Report V3

Agency: Acme GEO Agency

Brand: OrcaTech

Website: <https://orcatech.online>

Generated: 2026-06-08T03:02:23.986Z

Report standard: V3 evidence-backed intelligence. Generic recommendations are excluded.

1. Executive Summary

OrcaTech V3 intelligence is generated only from stored audits, prompt runs, citations, entity extraction, and competitor evidence.

GEO Score V3: 85; expected improvement potential: +16 points.

Threats: 3.

Opportunities: 11.

Confidence: 88; Data source: GEO_SCORE_V3; Last verified: 2026-06-08T03:02:23.901Z

Executive evidence: V3 score uses 6 weighted components totaling 100 possible points. (GEO Score Engine V3; <https://orcatech.online>)

Executive evidence: 2 real prompt response(s) and 9 citation row(s) were evaluated.

(Prompt Tracking + Citation Discovery; <https://orcatech.online>)

Executive evidence: Schema readiness is 100/100 from the latest GEO audit. (GEO Audit; <https://orcatech.online/>)

Executive evidence: FAQ coverage is 100/100 from audit checks. (GEO Audit; <https://orcatech.online/>)

Executive evidence: Authority audit score is 84/100 and citation authority sample has 8 source(s). (GEO Audit + Citation Authority; <https://orcatech.online>)

2. GEO Score V3 Breakdown

Overall Score: 85

Expected Gain: +16

Why score is not higher: Entity coverage is limited where competitors are associated with services or technologies the brand is not.

Confidence: 88; Data source: GEO_SCORE_V3; Last verified: 2026-06-08T03:02:23.901Z

Schema: 15/15 points; raw 100/100; improvement potential +0.

Reasoning: latest audit schema readiness is 100/100

Evidence: Schema readiness is 100/100 from the latest GEO audit. (GEO Audit; <https://orcatech.online/>)

FAQ: 15/15 points; raw 100/100; improvement potential +0.

Reasoning: latest audit FAQ coverage is 100/100

Evidence: FAQ coverage is 100/100 from audit checks. (GEO Audit; <https://orcatech.online/>)

Authority: 12.6/15 points; raw 84/100; improvement potential +2.4.

Reasoning: authority combines audit authority and citation-source authority signals

Evidence: Authority audit score is 84/100 and citation authority sample has 8 source(s). (GEO Audit + Citation Authority; <https://orcatech.online>)

Entities: 7.5/15 points; raw 50/100; improvement potential +7.5.

Reasoning: entity coverage is 50/100 across extracted brand, service, technology, location, industry, and competitor terms

Evidence: Entity coverage is 50/100 from extracted response entities. (Entity Intelligence Engine; <https://orcatech.online>)

Content: 19.2/20 points; raw 96/100; improvement potential +0.8.

Reasoning: content combines audit content coverage with prompt coverage outcomes

Evidence: Content audit score is 96/100 and prompt coverage score is 53/100. (GEO Audit + Prompt Coverage; <https://orcatech.online>)

Citations: 15.2/20 points; raw 76/100; improvement potential +4.8.

Reasoning: citation score combines audit citation readiness and citation impact evidence

Evidence: Citation readiness is 76/100 and citation authority impact average is 43/100. (GEO Audit + Citation Authority; <https://orcatech.online>)

3. Citation Authority

sama.gov.sa: value 47, difficulty 51, impact 43. Earn a brand mention or referenced resource on sama.gov.sa; it has enough authority and relevance to support AI citation readiness.

Confidence: 83; Data source: PROMPT_TRACKING + CITATION_AUTHORITY_ENGINE; Last verified: 2026-06-08T02:17:32.496Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://sama.gov.sa/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

saudiaramco.com: value 47, difficulty 51, impact 43. Earn a brand mention or referenced resource on saudiamco.com; it has enough authority and relevance to support AI citation readiness.

Confidence: 83; Data source: PROMPT_TRACKING + CITATION_AUTHORITY_ENGINE; Last verified: 2026-06-08T02:17:32.496Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://saudiaramco.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

stc.com.sa: value 47, difficulty 51, impact 43. Earn a brand mention or referenced resource on stc.com.sa; it has enough authority and relevance to support AI citation readiness.

Confidence: 83; Data source: PROMPT_TRACKING + CITATION_AUTHORITY_ENGINE; Last verified:

2026-06-08T02:17:32.496Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://stc.com.sa/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

mcit.gov.sa: value 47, difficulty 51, impact 43. Earn a brand mention or referenced resource on mcit.gov.sa; it has enough authority and relevance to support AI citation readiness.

Confidence: 83; Data source: PROMPT_TRACKING + CITATION_AUTHORITY_ENGINE; Last verified: 2026-06-08T02:17:32.496Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://mcit.gov.sa/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

cyberoam.com: value 47, difficulty 51, impact 43. Earn a brand mention or referenced resource on cyberoam.com; it has enough authority and relevance to support AI citation readiness.

Confidence: 83; Data source: PROMPT_TRACKING + CITATION_AUTHORITY_ENGINE; Last verified: 2026-06-08T02:17:32.496Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://cyberoam.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

checkpoint.com: value 47, difficulty 51, impact 43. Earn a brand mention or referenced resource on checkpoint.com; it has enough authority and relevance to support AI citation readiness.

Confidence: 83; Data source: PROMPT_TRACKING + CITATION_AUTHORITY_ENGINE; Last verified: 2026-06-08T02:17:32.496Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://checkpoint.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

paloaltonetworks.com: value 47, difficulty 51, impact 43. Earn a brand mention or referenced resource on paloaltonetworks.com; it has enough authority and relevance to support AI citation readiness.

Confidence: 83; Data source: PROMPT_TRACKING + CITATION_AUTHORITY_ENGINE; Last verified: 2026-06-08T02:17:32.496Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://paloaltonetworks.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

orcatech.com: value 47, difficulty 51, impact 43. Earn a brand mention or referenced resource on orcatech.com; it has enough authority and relevance to support AI citation readiness.

Confidence: 83; Data source: PROMPT_TRACKING + CITATION_AUTHORITY_ENGINE; Last verified: 2026-06-08T02:17:32.496Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://orcatech.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

4. Entity Intelligence

Entity coverage score: 50; dominance risk: 0; gaps: 0

cybersecurity (SERVICE): coverage 50, dominance 0, gap no.

Confidence: 65; Data source: PROMPT_TRACKING + AUDIT_TERMS; Last verified: 2026-06-08T03:02:23.981Z

Evidence: cybersecurity appeared in 2 prompt response(s). (Entity Extraction; <https://orcatech.online>)

Evidence: OrcaTech was associated with cybersecurity in 1 response(s). (Prompt Tracking; <https://orcatech.online>)

Evidence: Competitors dominated cybersecurity in 0 response(s). (Prompt Tracking; <https://orcatech.online>)

Saudi Arabia (SERVICE): coverage 50, dominance 0, gap no.

Confidence: 65; Data source: PROMPT_TRACKING + AUDIT_TERMS; Last verified: 2026-06-08T03:02:23.981Z

Evidence: Saudi Arabia appeared in 2 prompt response(s). (Entity Extraction; <https://orcatech.online>)

Evidence: OrcaTech was associated with Saudi Arabia in 1 response(s). (Prompt Tracking;

<https://orcatech.online>)

Evidence: Competitors dominated Saudi Arabia in 0 response(s). (Prompt Tracking;

<https://orcatech.online>)

Saudi (SERVICE): coverage 50, dominance 0, gap no.

Confidence: 65; Data source: PROMPT_TRACKING + AUDIT_TERMS; Last verified:

2026-06-08T03:02:23.981Z

Evidence: Saudi appeared in 2 prompt response(s). (Entity Extraction;

<https://orcatech.online>)

Evidence: OrcaTech was associated with Saudi in 1 response(s). (Prompt Tracking;

<https://orcatech.online>)

Evidence: Competitors dominated Saudi in 0 response(s). (Prompt Tracking;

<https://orcatech.online>)

Arabia (SERVICE): coverage 50, dominance 0, gap no.

Confidence: 65; Data source: PROMPT_TRACKING + AUDIT_TERMS; Last verified:

2026-06-08T03:02:23.981Z

Evidence: Arabia appeared in 2 prompt response(s). (Entity Extraction;

<https://orcatech.online>)

Evidence: OrcaTech was associated with Arabia in 1 response(s). (Prompt Tracking;

<https://orcatech.online>)

Evidence: Competitors dominated Arabia in 0 response(s). (Prompt Tracking;

<https://orcatech.online>)

security (SERVICE): coverage 50, dominance 0, gap no.

Confidence: 65; Data source: PROMPT_TRACKING + AUDIT_TERMS; Last verified:

2026-06-08T03:02:23.982Z

Evidence: security appeared in 2 prompt response(s). (Entity Extraction;

<https://orcatech.online>)

Evidence: OrcaTech was associated with security in 1 response(s). (Prompt Tracking;

<https://orcatech.online>)

Evidence: Competitors dominated security in 0 response(s). (Prompt Tracking;

<https://orcatech.online>)

5. Prompt Coverage

Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs.: importance 91, opportunity 72, revenue potential HIGH. Brand appearing: yes

Confidence: 83; Data source: PROMPT_TRACKING + CITATION_EXTRACTION; Last verified:

2026-06-08T02:17:05.080Z

Evidence: Prompt has 1 stored real response(s). (Prompt Tracking; <https://orcatech.online>)

Evidence: OrcaTech appeared in this prompt set. (Prompt Coverage Engine;

<https://orcatech.online>)

Evidence: 3 competitor(s) appeared; 5 citation source(s) were extracted. (Prompt Tracking + Citation Extraction; <https://orcatech.online>)

Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs.: importance 97, opportunity 71, revenue potential HIGH. Brand appearing: no
Confidence: 79; Data source: PROMPT_TRACKING + CITATION_EXTRACTION; Last verified: 2026-06-08T02:17:02.325Z

Evidence: Prompt has 1 stored real response(s). (Prompt Tracking; <https://orcatech.online>)

Evidence: OrcaTech did not appear in this prompt set. (Prompt Coverage Engine; <https://orcatech.online>)

Evidence: 0 competitor(s) appeared; 4 citation source(s) were extracted. (Prompt Tracking + Citation Extraction; <https://orcatech.online>)

6. Threat Engine V2

Palo Alto Networks: LOW, score 13, impact 7. Palo Alto Networks is currently a low operational threat: it appears in stored evidence, but no lost prompts, citation gaps, or entity domination were verified.

Confidence: 79; Data source: THREAT_ENGINE_V2 + PROMPT_COVERAGE + CITATION_AUTHORITY + ENTITY_INTELLIGENCE; Last verified: 2026-06-08T03:02:23.983Z

Evidence: Palo Alto Networks appeared in 1 real prompt response(s). (Prompt Tracking; <https://www.paloaltonetworks.com/>)

Evidence: Palo Alto Networks dominated 0 prompt response(s) where OrcaTech was absent. (Prompt Tracking; <https://orcatech.online>)

Evidence: paloaltonetworks.com owned 1 citation(s) in stored AI responses. (Citation Discovery; <https://www.paloaltonetworks.com/>)

Evidence: 0 prompt/content opportunity record(s) reference this competitor. (Prompt Discovery + Content Gaps; <https://orcatech.online>)

Check Point: LOW, score 13, impact 7. Check Point is currently a low operational threat: it appears in stored evidence, but no lost prompts, citation gaps, or entity domination were verified.

Confidence: 79; Data source: THREAT_ENGINE_V2 + PROMPT_COVERAGE + CITATION_AUTHORITY + ENTITY_INTELLIGENCE; Last verified: 2026-06-08T03:02:23.983Z

Evidence: Check Point appeared in 1 real prompt response(s). (Prompt Tracking; <https://www.checkpoint.com/>)

Evidence: Check Point dominated 0 prompt response(s) where OrcaTech was absent. (Prompt Tracking; <https://orcatech.online>)

Evidence: checkpoint.com owned 1 citation(s) in stored AI responses. (Citation Discovery; <https://www.checkpoint.com/>)

Evidence: 0 prompt/content opportunity record(s) reference this competitor. (Prompt Discovery + Content Gaps; <https://orcatech.online>)

Cyberoam: LOW, score 13, impact 7. Cyberoam is currently a low operational threat: it appears in stored evidence, but no lost prompts, citation gaps, or entity domination were verified.

Confidence: 79; Data source: THREAT_ENGINE_V2 + PROMPT_COVERAGE + CITATION_AUTHORITY + ENTITY_INTELLIGENCE; Last verified: 2026-06-08T03:02:23.983Z

Evidence: Cyberoam appeared in 1 real prompt response(s). (Prompt Tracking;

<https://www.cyberoam.com/>)

Evidence: Cyberoam dominated 0 prompt response(s) where OrcaTech was absent. (Prompt Tracking; <https://orcatech.online>)

Evidence: cyberoam.com owned 1 citation(s) in stored AI responses. (Citation Discovery; <https://www.cyberoam.com/>)

Evidence: 0 prompt/content opportunity record(s) reference this competitor. (Prompt Discovery + Content Gaps; <https://orcatech.online>)

7. Opportunity Engine V3

Best cybersecurity company in Saudi Arabia for regulated banks: expected gain 60, difficulty 70, revenue potential HIGH, quick win no. Stored prompt, citation, or audit evidence supports this opportunity; no provider-only assumption is used.

Confidence: 85; Data source: OPPORTUNITY_ENGINE_V3 + PROMPT_COVERAGE + CITATION_AUTHORITY + ENTITY_INTELLIGENCE; Last verified: 2026-06-08T03:02:23.985Z

Evidence: OrcaTech is a professional web development and cybersecurity company serving businesses in Egypt, Saudi Arabia, and worldwide. (AI prompt discovery)

Evidence: OrcaTech provides SOC services for regulated banks in Saudi Arabia. (AI prompt discovery)

Evidence: Prompt generated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

Earn citation on sama.gov.sa: expected gain 35, difficulty 51, revenue potential MEDIUM, quick win no. sama.gov.sa has authority/relevance evidence and competitor presence that the brand has not matched.

Confidence: 82; Data source: OPPORTUNITY_ENGINE_V3 + PROMPT_COVERAGE + CITATION_AUTHORITY + ENTITY_INTELLIGENCE; Last verified: 2026-06-08T03:02:23.986Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://sama.gov.sa/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

Earn citation on saudiamco.com: expected gain 35, difficulty 51, revenue potential MEDIUM, quick win no. saudiamco.com has authority/relevance evidence and competitor presence that the brand has not matched.

Confidence: 82; Data source: OPPORTUNITY_ENGINE_V3 + PROMPT_COVERAGE + CITATION_AUTHORITY + ENTITY_INTELLIGENCE; Last verified: 2026-06-08T03:02:23.986Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://saudiamco.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

Earn citation on stc.com.sa: expected gain 35, difficulty 51, revenue potential MEDIUM, quick win no. stc.com.sa has authority/relevance evidence and competitor presence that the brand has not matched.

Confidence: 82; Data source: OPPORTUNITY_ENGINE_V3 + PROMPT_COVERAGE + CITATION_AUTHORITY + ENTITY_INTELLIGENCE; Last verified: 2026-06-08T03:02:23.986Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://stc.com.sa/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

Earn citation on mcit.gov.sa: expected gain 35, difficulty 51, revenue potential MEDIUM, quick win no. mcit.gov.sa has authority/relevance evidence and competitor presence that the brand has not matched.

Confidence: 82; Data source: OPPORTUNITY_ENGINE_V3 + PROMPT_COVERAGE + CITATION_AUTHORITY + ENTITY_INTELLIGENCE; Last verified: 2026-06-08T03:02:23.986Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://mcit.gov.sa/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

Earn citation on cyberoam.com: expected gain 35, difficulty 51, revenue potential MEDIUM, quick win no. cyberoam.com has authority/relevance evidence and competitor presence that the brand has not matched.

Confidence: 82; Data source: OPPORTUNITY_ENGINE_V3 + PROMPT_COVERAGE + CITATION_AUTHORITY + ENTITY_INTELLIGENCE; Last verified: 2026-06-08T03:02:23.986Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://cyberoam.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

Earn citation on checkpoint.com: expected gain 35, difficulty 51, revenue potential MEDIUM, quick win no. checkpoint.com has authority/relevance evidence and competitor presence that the brand has not matched.

Confidence: 82; Data source: OPPORTUNITY_ENGINE_V3 + PROMPT_COVERAGE + CITATION_AUTHORITY + ENTITY_INTELLIGENCE; Last verified: 2026-06-08T03:02:23.986Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation;
<https://checkpoint.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile;
<https://orcatech.online>)

Earn citation on paloaltonetworks.com: expected gain 35, difficulty 51, revenue potential MEDIUM, quick win no. paloaltonetworks.com has authority/relevance evidence and competitor presence that the brand has not matched.

Confidence: 82; Data source: OPPORTUNITY_ENGINE_V3 + PROMPT_COVERAGE + CITATION_AUTHORITY + ENTITY_INTELLIGENCE; Last verified: 2026-06-08T03:02:23.986Z

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation;
<https://paloaltonetworks.com/>)

Evidence: Citation source evaluated for Cybersecurity in Saudi Arabia. (Brand Profile;
<https://orcatech.online>)

8. Competitor Intelligence Cards

Palo Alto Networks: GEO 18, visibility 8, citation 0, prompt dominance 50, entity coverage

0. Palo Alto Networks is currently a low operational threat: it appears in stored evidence, but no lost prompts, citation gaps, or entity domination were verified.

Confidence: 84; Data source: COMPETITOR_INTELLIGENCE_ENGINE; Last verified: 2026-06-08T03:02:23.985Z

Evidence: Palo Alto Networks appeared in 1 real prompt response(s). (Prompt Tracking;
<https://www.paloaltonetworks.com/>)

Evidence: Palo Alto Networks dominated 0 prompt response(s) where OrcaTech was absent. (Prompt Tracking; <https://orcatech.online>)

Evidence: paloaltonetworks.com owned 1 citation(s) in stored AI responses. (Citation Discovery; <https://www.paloaltonetworks.com/>)

Evidence: 0 prompt/content opportunity record(s) reference this competitor. (Prompt Discovery + Content Gaps; <https://orcatech.online>)

Check Point: GEO 18, visibility 8, citation 0, prompt dominance 50, entity coverage 0.

Check Point is currently a low operational threat: it appears in stored evidence, but no lost prompts, citation gaps, or entity domination were verified.

Confidence: 84; Data source: COMPETITOR_INTELLIGENCE_ENGINE; Last verified: 2026-06-08T03:02:23.985Z

Evidence: Check Point appeared in 1 real prompt response(s). (Prompt Tracking;
<https://www.checkpoint.com/>)

Evidence: Check Point dominated 0 prompt response(s) where OrcaTech was absent. (Prompt Tracking; <https://orcatech.online>)

Evidence: checkpoint.com owned 1 citation(s) in stored AI responses. (Citation Discovery; <https://www.checkpoint.com/>)

Evidence: 0 prompt/content opportunity record(s) reference this competitor. (Prompt Discovery + Content Gaps; <https://orcatech.online>)

Cyberoam: GEO 18, visibility 8, citation 0, prompt dominance 50, entity coverage 0.

Cyberoam is currently a low operational threat: it appears in stored evidence, but no lost prompts, citation gaps, or entity domination were verified.

Confidence: 84; Data source: COMPETITOR_INTELLIGENCE_ENGINE; Last verified: 2026-06-08T03:02:23.985Z

Evidence: Cyberoam appeared in 1 real prompt response(s). (Prompt Tracking; <https://www.cyberoam.com/>)

Evidence: Cyberoam dominated 0 prompt response(s) where OrcaTech was absent. (Prompt Tracking; <https://orcatech.online>)

Evidence: cyberoam.com owned 1 citation(s) in stored AI responses. (Citation Discovery; <https://www.cyberoam.com/>)

Evidence: 0 prompt/content opportunity record(s) reference this competitor. (Prompt Discovery + Content Gaps; <https://orcatech.online>)

9. 30-Day Evidence-Backed Plan

Priority #1: Best cybersecurity company in Saudi Arabia for regulated banks

Why: Stored prompt, citation, or audit evidence supports this opportunity; no provider-only assumption is used.

Expected gain: 60; Difficulty: 70; Revenue potential: HIGH; Confidence: 85

Evidence: OrcaTech is a professional web development and cybersecurity company serving businesses in Egypt, Saudi Arabia, and worldwide. (AI prompt discovery)

Evidence: OrcaTech provides SOC services for regulated banks in Saudi Arabia. (AI prompt discovery)

Evidence: Prompt generated for Cybersecurity in Saudi Arabia. (Brand Profile; <https://orcatech.online>)

Priority #2: Earn citation on sama.gov.sa

Why: sama.gov.sa has authority/relevance evidence and competitor presence that the brand has not matched.

Expected gain: 35; Difficulty: 51; Revenue potential: MEDIUM; Confidence: 82

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://sama.gov.sa/>)

Priority #3: Earn citation on saudiamco.com

Why: saudiamco.com has authority/relevance evidence and competitor presence that the brand has not matched.

Expected gain: 35; Difficulty: 51; Revenue potential: MEDIUM; Confidence: 82

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://saudiaramco.com/>)

Priority #4: Earn citation on stc.com.sa

Why: stc.com.sa has authority/relevance evidence and competitor presence that the brand has not matched.

Expected gain: 35; Difficulty: 51; Revenue potential: MEDIUM; Confidence: 82

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Best cybersecurity company in Saudi Arabia for AI security and regulated banks. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://stc.com.sa/>)

Priority #5: Earn citation on mcit.gov.sa

Why: mcit.gov.sa has authority/relevance evidence and competitor presence that the brand has not matched.

Expected gain: 35; Difficulty: 51; Revenue potential: MEDIUM; Confidence: 82

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://mcit.gov.sa/>)

Priority #6: Earn citation on cyberoam.com

Why: cyberoam.com has authority/relevance evidence and competitor presence that the brand has not matched.

Expected gain: 35; Difficulty: 51; Revenue potential: MEDIUM; Confidence: 82

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://cyberoam.com/>)

Priority #7: Earn citation on checkpoint.com

Why: checkpoint.com has authority/relevance evidence and competitor presence that the brand has not matched.

Expected gain: 35; Difficulty: 51; Revenue potential: MEDIUM; Confidence: 82

Evidence: Domain appeared 1 time(s) in real provider responses. (Citation discovery)

Evidence: Prompts: Compare OrcaTech, Palo Alto Networks, Check Point, and Cyberoam for cybersecurity in Saudi Arabia. Include source URLs. (Citation discovery)

Evidence: Domain verification returned HTTP 200. (Domain Validation; <https://checkpoint.com/>)
